

SIHI® Pump Maintenance Packs Aftermarket Spare Parts Kits

SIHI HEGA, ZLND and ZTND model pumps

Experience In Motion

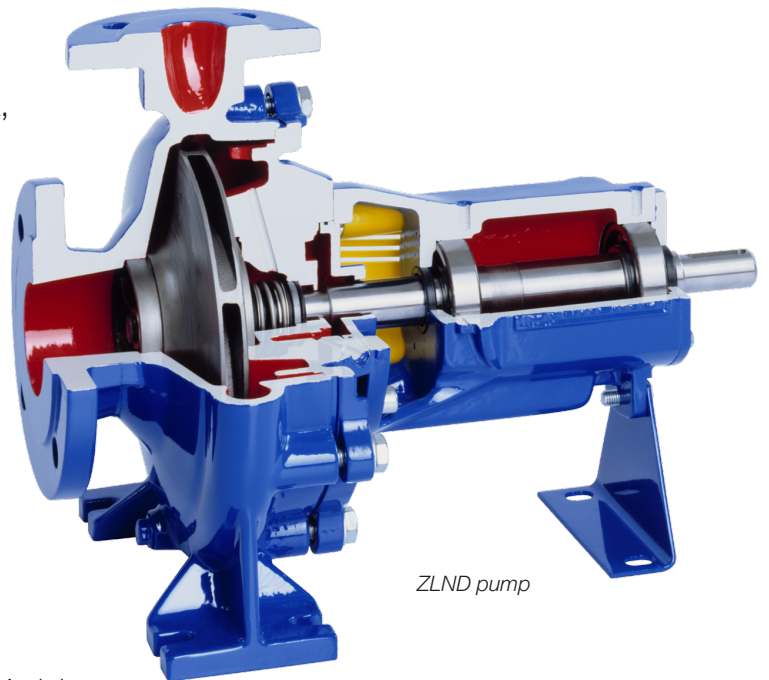

Everything you need in one box

SIHI Pump Maintenance Packs from Flowserve provide everything you need in one box to perform routine maintenance on your SIHI HEGA, ZLND and ZTND pumps. These conveniently packaged, OEM-quality spare parts kits help to simplify maintenance, maximize equipment reliability, and ensure pumps are quickly returned to service.

Benefits that pay

- **Simplicity** — Routine maintenance couldn't be simpler. The technician grabs one box containing all the needed parts and is ready to go. No return trips to the stockroom for a forgotten or mis-sized part.
- **Cost savings** — Improve your purchasing power. SIHI Pump Maintenance Packs cost less than buying all the parts individually. And since everything is in one box, there is only one part number to track. Inventory levels and associated costs are also reduced.
- **Reliability** — It's all about increasing uptime. With the assurance that you're getting all the correct, OEM-quality parts, SIHI Pump Maintenance Packs make it easier to restore your SIHI pumps to their original operating conditions — quickly.

ZLND pump

HEGA Pump Maintenance Pack

Includes: Keys, deflector ring, shoulder ring, circlip, O-rings, bearings, shaft nut and seal cap flat gasket. Mechanical seal available.

Part Number	Description
12650848	HEGA 25 without mechanical seal
12650847	HEGA 25 with mechanical seal
12650849	HEGA 32 without mechanical seal
12650846	HEGA 32 with mechanical seal
12650850	HEGA 40 without mechanical seal
12650852	HEGA 40 with mechanical seal
12650851	HEGA 50 without mechanical seal
12650845	HEGA 50 with mechanical seal

Flowserve Corporation has established industry leadership in the design and manufacture of its products. When properly selected, this Flowserve product is designed to perform its intended function safely during its useful life. However, the purchaser or user of Flowserve products should be aware that Flowserve products might be used in numerous applications under a wide variety of industrial service conditions. Although Flowserve can provide general guidelines, it cannot provide specific data and warnings for all possible applications. The purchaser/user must therefore assume the ultimate responsibility for the proper sizing and selection, installation, operation, and maintenance of Flowserve products. The purchaser/user should read and understand the Installation Instructions included with the product, and train its employees and contractors in the safe use of Flowserve products in connection with the specific application.

While the information and specifications contained in this literature are believed to be accurate, they are supplied for informative purposes only and should not be considered certified or as a guarantee of satisfactory results by reliance thereon. Nothing contained herein is to be construed as a warranty or guarantee, express or implied, regarding any matter with respect to this product. Because Flowserve is continually improving and upgrading its product design, the specifications, dimensions and information contained herein are subject to change without notice. Should any question arise concerning these provisions, the purchaser/user should contact Flowserve Corporation at any one of its worldwide operations or offices.
